## THE GAS WENT OUT

NO CAUSE FOR IT, AND NO ONE WAS ASPHIXIATED.

Several merchants on South Second street reported a peculiar occurrence this morning. When one or two of them arose they found their establishments full of gas. The gas had been left burning when they retired but for some reason went out during the night allowing the gas to escape and fill the lower floor.

Mr. D. J. Levy states that his house was so full he came near being asphyxiated before he could open the front doors and allow fresh air to come in. A merchant on the other side of him said the same thing.

The gas upstairs did not go out, and at the gas company they could not explain what caused the phenomenon.

## ANOTHER SCORCHER.

TEMPERATURE MAY REACH 97 THIS AFTERNOON.

Today has been just a shade cooler than yesterday but will probably register as hot as yesterday before the day is over.

Yesterday the thermometer registered 96 at 2 o'clock, the regular observation time, but did not go higher. Today at 2 o'clock the thermometer registered 95 and it is thought will register 97 before the day is over. The weather was affected today slightly by a few clouds, while with a clear sky, as yesterday, the heat might have been felt more.

The highest the mercury registered last night was 76.

## HARMONY IN IOWA

A State Ticket Nominated By the Republicans.

Some Little Speculation as to Russia's Attitude Towards the United States.

## TELEGRAPH NEWS OF TODAY

## HARMONY OF IOWA REPUBLICANS.

Des Moines, Ia., July 2—Governor—A. B. Cummins.

Lieutenant governor—John Herriott.

Supreme judge—Charles A. Bishop.

Railroad commissioner—David J. Palmer.

State superintendent of education—F. J. Riggs.

The Republican state convention nominated the foregoing ticket and adopted a platform of principles. All the candidates were renominated by acclamation with the exception of the state superintendent. Harmony marked the proceedings of the convention, all of its action being by unanimous vote. The tariff plank adopted was one prepared by Senator Allison.

## NO EXPLANATION OFFERED.

Washington, July 2—The Associated Press is authorized to state that the Russian government most positively and absolutely denies the report that it has offered any official explanation to the American government, either through the Russian embassy at Washington or the American embassy at St. Petersburg, regarding the Kishineff incident, and declares that it had never been advised by the American government upon the subject. The Russian government must categorically refuse to receive from any power any petitions, representations or communications relative to its internal affairs.

The above statement was shown Count Cassini, the Russian ambassador, last night, but he declined to make any comment on it. Any reply to this statement must be made under direct instructions from St. Petersburg. It is realized both at the state department and at the Russian embassy that the situation is extremely delicate.

## THE COUNTY ROADS

The Graveling Will Begin on the 13th of July.

About Five Car Loads of Pipe Already Laid in the County.

County Road Supervisor Bert Johnson states that the county roads are now in the best condition for years and are rapidly being improved.

On Monday, July 13, he will begin the work of graveling twelve miles of the dirt roads, as already provided for by agreement with the farmers. Seven miles on the St. John road will be gravelled and five miles on the Concord road. If the weather is good the work will be finished in a few weeks. Supervisor Johnson has already this summer laid five car loads of pipe, which takes the place of the old wooden culverts, and thinks the improvement will save the county much money. More pipe will be laid in place of the antiquated drains as it arrives.

Mrs. Harry Shanks, who was visiting her sister, Mrs. David Van Oulin, was called to Louisville yesterday by the sudden death of Mr. Shanks' mother.

## A BIG DEBATE IS ON

Large Crowds Gather in Graves County.

Preachers Abuse Each Other Monday Until 3 a. m. and Warrants Were Issued.

## MUCH EXCITEMENT AROUSED

There has been a warm time down in Graves over the religious debate, according to reports from there today. It is said "Wild Bill" Evans, Methodist, and William Hicks, Baptist, were arrested for using insulting language towards each other, and J. J. Koster and L. Y. Brown with using improper language in the presence of Rev. Hart, a Methodist minister. Their trials are set for tomorrow before Justice Wilson at Sedalia.

The long-heralded debate between Elder J. N. Hall of Fulton and Rev. W. H. Pigue of Newbern, Tenn., one editor of the Baptist Flag and the latter of the Methodist, is now on at Sedalia and large crowds are witnessing it.

Yesterday's Mayfield Messenger says of it:

"Wild Bill Evans had preceded the debate by two or three days, scattering circulars, papers and otherwise denouncing Elder Hall and preaching in the tent.

"W. M. Hicks, a minister of the Baptist church, had also come a day or so in advance in order to reply to some charges that Evans was making against him. They met in joint discussion at the tent on Monday night and abused each other until after 2 o'clock Tuesday morning. There was a good crowd out to hear them, some remaining until the discussion closed.

"It is said by those who were there that nothing of the like had ever occurred in that section before. Evans spoke three or four hours and Hicks never got to speak until about 1 o'clock in the morning. This of course stirred up some excitement and made Sedalia the religious storm center for the week. The people got enough of Evans and Hicks, but were anxious to hear Hall and Pigue open the debate.

"In order to be present at the beginning the people began coming in long before the hour for the debate to begin, so at the hour named there was an immense crowd present. The debate took place in the big grove just this side of the town, in a big tent that had been brought there for the purpose."

AN OLD VOLUME—A German prayer book printed in 1782 is still in the family of Mrs. Hannah Stuck, of North 8th street, and has been almost constantly in the Stuck family since it was printed. It is now being rebound at Mr. Henry Mammen's, the old binding having worn away.

## IS STILL HUMMING

Business Being Pushed on the Cairo Extension.

Big Official Shaken Up By Careless Train Men—L. C.'s New Coal Line.

## TRAIN TO CAIRO JULY 15

Mr. I. G. Rawn, the new superintendent of transportation of the I. C. road, was badly shaken up in his car yesterday afternoon at Fulton when a switch engine was making a flying switch with his private car. The couplings parted and let the car smash into the Memphis train and many dishes in the car were broken and several passengers besides the superintendent of transportation were badly shaken. The cars were damaged slightly and the engine foreman, Moore, resigned his position immediately after the accident.

Work on the Cairo extension of the I. C. is progressing rapidly and it is estimated that the cut will be finished and the track laid by the 14th of this month and on the 15th the first train will be run through. The cut has caused much work and delay, but only two miles remain to be worked and when this is completed the road will be ready for service except for a few repairs and improvements that will have to be made after experiments. This is given out by officials.

The I. C. road has just completed plans and secured the right of way for the construction of a six mile railroad from Province to Lisman, Ky. This railroad will penetrate a rich section of coal fields and heretofore the L. and N. was the only road operating in this territory. The work on the road will begin immediately.

Trainmaster H. J. Scheuing of the Gulf and Ship Island road passed through the city today at noon en route to Louisville, where he was formerly stationed as trainmaster of the Louisville division of the I. C.

Superintendent A. Philbrick and Roadmaster J. M. Russell of the Louisville division of the I. C. are in the city today.

## SMALL BLAZE.

OUTHOUSES BURNED AT FIFTH AND NORTON.

The Central fire department was called to South Fifth street near Norton this morning about 10 o'clock to extinguish a blaze in a small stable in a residence between Norton and Jones street, the property of Mr. Gus Budde. The origin of the fire is unknown and the property is a total loss to the owner. A stable and two outhouses were burned but the loss will not amount to much. The firemen made a good run and did quick work in extinguishing the fire which had already burned the stables nearly down.

## IN POLICE CIRCLES

A Lengthy Session of Police Court This Morning.

Last Month Over 150 Arrests Were Made—News Today About the City Hall.

## FEW ARRESTS MADE LATELY

There was another lengthy session of the police court today, Judge D. L. Sanders presiding.

John Perry was held for stealing a watch and went to jail in default of a \$300 bond, while Gertie Perry was dismissed.

Wm. Moore, for breaking into a South Side saloon, was held in the sum of \$200.

The Elmendorf-Bulger case for grand larceny was continued again.

Charles Van Devort and G. P. McElhaney were fined \$25 and costs each. McElhaney escaped from Constable Sears several days ago and has not been seen since. It is understood he is in Metropolis.

George Marshall and Frances Lewis, colored, were fined \$20 and costs each for immorality.

R. S. Menifee was fined \$10 and costs for violation of Sabbath, and the cases against J. C. Hinton, George Andreht and J. R. Gray were continued, the last until Monday.

Dixie Wilson was fined \$5 and costs for a breach of the peace.

The case against Hudder Stone, the colored girl charged with throwing a rock through a train, and Bud Hill, for rescuing her, were left open until tomorrow.

The malicious cutting case against Andrew Boyd was continued and also that against Marion Lucas for obtaining money by false pretenses, attachments for witnesses being awarded in the latter case.

M. V. Vaughan of Graves county, of course, was fined \$25 and sentenced to ten days in jail for carrying concealed a pistol.

The police report for the month of June shows that there were over 150 arrests during the month. They were as follows: Obtaining money by false pretenses 6, drunk 15, disorderly conduct 13, suspect 3, breach of the peace 49, grand larceny 9, breach of ordinance 33, presenting pistol; carrying concealed weapons 7, immorality 4, housebreaking 3, petty larceny 1, forgery 1, drunk and disorderly 4, fugitive from justice 2, failure to support child 1, malicious cutting 2, rescuing prisoner from officer 1, malicious assault 1, false swearing 3.

Henry Downing, the Marshall county man arrested yesterday by Officer Thad Terrell and Sheriff Reeves of Benton while driving out the Cairo road with a young lady, was taken to Benton overland and doubtless released. He was charged with taking away mortgaged property, but it appears the property was the horse he was driving and he has no intention of making away with it, but was only using it.

The case against Redmond, the young man charged with striking the blow which resulted in the death at Alton, Ill., of William Thurman of Paducah a short time ago, has been held to answer at Alton and his case set for the October term of court. It is understood he is trying to get out on a writ of habeas corpus.

Officer E. F. Farrow, who has been ill from dropsy for the past several months and spends a great deal of his time at Dawson Springs, is improving rapidly and expects to return to Paducah in a few weeks at most.

Justice Burnett held court yesterday afternoon and tried Mrs. L. Thomas for using insulting language, fining her \$1 and costs for the offense. It seems she had an altercation with a neighbor.

Mr. and Mrs. W. A. Davis, Moses Starr and Dr. W. H. Hanabroge, his morning for Memphis to his Mississippi Valley Trap tournament. They will hope to capture

## TO BE RELAY STATION

Postal to Make Paducah a More Important Office.

Will Soon Have Direct Local Wires to Louisville, Nashville, Memphis and St. Louis

## POSTAL'S 4TH OF JULY FEAT

The Illinois Central will open its new telegraph line to Cairo in a few days, and then turn it over to the Postal telegraph company, which has the lease of all lines operated by the Illinois Central. The railroad company builds the line and strings one wire on it. The Postal then takes charge and strings additional wires. Manager Allen stated today that his company would as soon as the new line from Paducah to Cairo is turned over to them, begin stringing its wires, and in a short time will have a direct wire to Cairo and St. Louis.

By the acquisition of the Tennessee Midland by the Illinois Central, the Postal also gets the telegraph lines on that road, giving it direct lines to Nashville. The transfer of these lines is expected to take place in a few days. When it is made the Postal will have direct wires to Louisville, Memphis, Nashville, St. Louis and Cairo out of Paducah, and Paducah will be made a relay station, and the force here probably increased.

The Postal company has aroused a great deal of interest throughout the country by its contemplated feat day after tomorrow, July 4, when it will try to circle the globe with a message in forty seconds, less than one minute. Everything has been arranged for the transmission of the sentence which will prove the greatest feat of telegraphy on record, and is only possible now by the completion of the cable to Hawaii and the Philippines, which is to be formally opened Saturday by President Roosevelt, who will send greetings to Governor Taft.

The new cable is nearly 8,000 miles long, and will give this country as quick communication with the Philippines as Washington now has with New York. After the formal opening of the cable the Postal company, in connection with the Commercial Cable company, will send a message around the world in less than a minute. Instructions have been sent to all the lines and offices that will handle the message and it is anticipated that everything will pass off like clockwork.

A new telegram form has been designed and adopted by the Postal company.

The distinctive feature of the form is a unique device, or "trademark," elliptical in shape, to indicate that the company's lines extend more than two-thirds of the distance from east to west around the world. The border of the ellipse is a representation of an armored submarine cable with the words "Postal Telegraph Commercial Cable System" in white on the blue ground of a marginal band surrounding a reduced map showing the silhouette the Atlantic and Pacific oceans, the shores of Europe and Asia and the continent of North America, and indicating the routes of ocean cables and the main American landlines of the Commercial Cable and Postal Telegraph companies.

The device is a graphic delineation in a remarkably small space of the comprehensive and far-reaching telegraph system which will endure as a fitting monument to the late John W. Mackey, in whose patriotism and public spirit it was conceived and by whose sagacity, financial ability and indomitable energy it was established and developed despite powerful opposition, until it gained public recognition as one of the most successful as well as beneficial business enterprises of the times.

## JUDGE HARGIS' SIDE

He Tells How Jett's Mother Befriended Him.

And Says That He Has Done Nothing He Could Help—Did Not Like Marcum.

DECLARES HE IS MUCH ABUSED

County Judge Hargis, of Breathitt, has been painted in rather lurid colors since the Jett-White arrests were made, but his statement to a Louisville Times correspondent shows at least that there are two sides to every question. He says:

"I have been the worst abused man in Breathitt county. The newspapers have charged me with all kinds of crime and the people of the state are holding me responsible for the outrages here. I swear that in all my life I have never shed the blood of any man, and I have tried in every way to avoid trouble. All I asked of any one was to be let alone to make money and rear my family. I have been persecuted and hounded, accused of crime and slandered. My family has been disgraced almost and my children now cannot go away to school because of the unfriendliness shown toward them by the students when it becomes known that they are the children of Jim Hargis.

"I had no desire to see Jim Marcum murdered. It is true that I did not like him, and I tried in every way to induce him to leave this county. He made an affidavit against me, that Mose Feltner had said I had tried to hire him to kill Marcum. I sued him for criminal libel, but I only wanted him to leave here and let me pursue my own way. I would much rather have had him live with a judgment for criminal libel hanging over him than to have him dead. I heard that he wanted to sell his property, and I arranged for my clerk to buy the land. He had said that if he could sell his land he would leave. When my clerk went to buy the land, Marcum said he had raised the price \$250. I then had my lawyer buy the land. Then Marcum said if he could only sell his cattle he would leave. My brother, Alex, bought the cattle, and when he went for them, Mrs. Marcum said she had decided not to sell for that price. Alex went into his pocket and paid the difference. Marcum went away for a while, but he soon came back. I never had a word with him, and would never have had a word if he had lived here a thousand years. As long as he did not bother me, I was glad to see him get along.

"He was killed, and the people of the state said that I had helped to plan his death because we were unfriendly. They blamed me for not going to him when I saw he was shot, but I don't believe the people who blame me would have gone under the circumstances. I would not have gone without a pistol, and if I had gone with one I would have been suspected of having fired the shot. For the same reason I would not let Sheriff Ed Callahan go, but told him to have Ewen search the court house.

"I have nothing to say about Marcum. He's dead and I feel sorry for his family, but he had the worst temper of any man I ever saw. He was a bright fellow, with an unbridled tongue.

"I saw my two brothers shot down in cold blood, foully assassinated. I saw my old father driven from home and his children left penniless. I have gone through all this, trying to live peaceably, and make money, but they wouldn't let me. When they dragged me into this case by implication, I was determined to see it through. Curt Jett's old mother befriended me and my small brothers when we were little and our father had been driven from home.

"She walked twenty miles many days to bring us food and went without shoes that we might be kept from starvation. She has a wayward son, but she is a good woman. When he was accused of the crime she came to me and cried. She pleaded with me to help her. She has no money but a little farm worth about \$1,600. She said: 'Jim are you going to let my boy be hanged for want of a lawyer?' 'I've done for you?' and I told her I would stand by her. 'What I've got, and I will. I went into the case for my own sake. Not for him, but for the sake of my family. I was one of the first to see that the state was wrong. I will prove a revelation to you.'

## OUT OF BUSINESS

WILL MANY TYPESETTERS GO WHEN THE NEW INVENTION IS ADOPTED.

When the typesetting machine was perfected it revolutionized the printing business, especially in the newspaper and book trades. The machines put a lot of old-time printers, who knew nothing but typesetting, out of the business; but now, according to an exchange, a still greater invention comes to the front and proposes to put them all out. An electric typesetting machine is being perfected by which one operator can in a news-gathering center like the associated press headquarters in New York operate the machines and set the type for the big daily papers in all the offices of the country at the same time. Wire connections with the machines in the different cities is all that is required. When the operator strikes a key on the machine at the central office the same key on every machine connected will drop the same letter no matter how great the distance.

Malaria cannot find a lodgment in the system while the liver is in perfect order, for one of its functions is to prevent the absorption of fever-producing poisons. ## WILLOW FLIES.

SOMETHING OF THE STRANGE INSECTS ABOUT THE RIVER.

For many years those who have occasion to go down about the river have at times noticed the peculiar looking insects that cling in millions to boats and everything else that floats, but doubtless few know anything about the life of these "willow flies" as they are called. The Louisville Post says of them:

The marine man is not a bugologist, but upon inquiring into the origin of the willowfly the fact was ascertained from Captain William M. Devan, that a tiny insect arises from the bottom to the surface of the water; after floating a few moments wings begin appearing on it; then in a few moments more it flies off in a straight line, keeping its course until it strikes something, where it sticks until it dies. It has its existence about twelve hours. Its appearance in this harbor is only three days in each year, and is considered the forerunner of very warm weather. The willow fly is patterned much after what is known as the "snake feeder," which is common around small streams in the country, but is not so large. There have been instances in his harbor where willow flies would stick so thick on new steamboats, that painted, that the job had to be done over.

then on the best evidence at its com-

vailed and got the new system. The

lieves that the people will choose  
their own telephone regardless of any  
combination that may be attempted to  
form a monopoly in the interest of  
either system.

In discussing the Brethitt assassina-  
tion the Lexington Democrat says:  
"What the Democrat desires to im-  
press upon the Republican fanatics is  
that if Judge Hargis is really guilty  
of being in any conspiracy to encom-  
pass the death of any citizen, prove  
him so and punish him to the extent  
of the law." Exactly. That truth  
should be enforced on all fanatics.  
The men who in advance of all evi-  
dence clamored for the blood of Tay-  
lor and the damnation of the Republi-  
can party should lay the teachings of  
the Lexington Democrat to heart.—  
Louisville Post.

A Hoosier citizen took a Vincennes  
paper and refused to pay for it. The  
editor desired to make an example of  
him, and did it well. He brought  
suit and got judgment for 50 cents,  
the amount due on subscription. The  
hoosier then had to pay for the experience.  
Life is a school where we learn to pay  
in any manner, or on demand at the most.

Way to say, we have been told how much city  
any one was been collected during the  
money and now let somebody tell us  
been persecuted as collected last year were  
of crime and what the money now  
has been disgraced to buy. If the peo-  
children now cannot as much interest  
because of the unfriended money goes as they  
toward them by the study, from we would  
becomes known that they are  
dren of Jim Hargis.

"I had no desire to see Jim of Ohio ex-  
cused murdered. It is true that I and will  
not like him, and I tried in every way  
to induce him to leave this county.

He made an affidavit against me, that  
Mose Feltner had said I had tried to  
hire him to kill Marcum. I sued him  
for criminal libel, but I only wanted  
him to leave here and let me pursue  
my own way. I would much rather  
have had him live with a judgment  
for criminal libel hanging over him  
than to have him dead. I heard that  
he wanted to sell his property, and I  
arranged for my clerk to buy the land.  
He had said that if he could sell his  
land he would leave. When my clerk  
went to buy the land, Marcum said he  
had raised the price \$250. I then had  
my lawyer buy the land. Then Mar-  
cum said if he could only sell his cat-  
tle he would leave. My brother,  
Alex, bought the cattle, and when he  
went for them, Mrs. Marcum said she  
had decided not to sell for that price.  
Alex went into his pocket and paid  
the difference. Marcum went away  
for a while, but he soon came back. I  
never had a word with him, and  
would never have had a word if he  
had lived here a thousand years. As  
long as he did not bother me, I was  
glad to see him get along.

"He was killed, and the people of  
the state said that I had helped to  
plan his death because we were un-  
friendly. They blamed me for not  
going to him when I saw he was shot,  
but I don't believe the people who  
blame me would have gone under the  
circumstances. I would not have gone  
without a pistol, and if I had gone  
with one I would have been suspected  
of having fired the shot. For the  
same reason I would not let Sheriff Ed  
Callahan go, but told him to have  
Ewen search the court house.

"I have nothing to say about Mar-  
cum. He's dead and I feel sorry for  
his family, but he had the worst tem-  
per of any man I ever saw. He was a  
bright fellow, with an unbridled  
tongue.

"I saw my two brothers shot down  
in cold blood, foully assassinated. I  
saw my old father driven from home  
and his children left penniless. I have  
gone through all this, trying to live  
peaceably, and make money, but they  
wouldn't let me. When they dragged  
me into this case by implication, I  
was determined to see it through.  
Curt Jett's old mother befriended me  
and my small brothers when we were  
little and our father had been driven  
from home.

"She walked twenty miles many  
days to bring us food and went with-  
out shoes that we might be kept from  
starvation. She has a wayward son,  
but she is a good woman. When he  
was accused of the crime she came to  
me and cried. She pleaded with me  
to help her. She has no money but a  
little farm worth about \$1,500. She  
said: 'Jim are you going to let my  
boy be hanged for want of a lawyer  
att? I've done for you?' and I told  
her I would stand by her. I told  
her I've got, and I will. I  
went into the case for her. I

## THE SHAM BATTLE

The Attack Will First be Made  
on Camp.

Murray Company Will be Under Com-  
mand of Former Captain.

In speaking of arrangements for the  
sham battle Captain James Caldwell  
of the Wheeler Guards outlined briefly  
the plan. The local company, with  
the divisions of the other company,  
will be in camp when attacked, and  
after that the regular prearranged  
battle will take place and the tactics  
and other points in warfare will be  
strongly brought out.

Captain Caldwell stated that the re-  
port relative to the Murray military  
company now coming here to partici-  
pate in the sham battle was erroneous  
and that Murray would be represented  
and also would Mayfield and Clinton.

"Lieutenant Park of Murray," Cap-  
tain Caldwell stated, "is ill and will  
probably not be able to come, but ex-  
Captain Albritton of Murray has con-  
sented to command the company and  
bring it here, and I have been assured  
that the company will come and feel  
confident that we will carry our pro-  
gram through without a hitch."

The Armour Cadets, an excellent  
military company of Chicago, will go  
to Lexington to camp and will not  
come here, as first expected. These  
cadets first wrote here for accommo-  
dations and the Wheeler Guards ex-  
tended to them the use of the armory  
and cots, but it seems they have been  
better pleased at Lexington.

### THE BOSS WORM MEDICINE.

H. P. Kumpke, druggist, Leighton,  
Ala., writes: "One of my customers  
had a child which was sick and threw  
up all food; could retain nothing on  
its stomach. He bought one bottle of  
White's Cream Vermifuge and it  
brought up 119 worms from the child.  
It's the boss worm medicine in the  
world." White's Cream Vermifuge  
is also the children's tonic. It im-  
proves their digestion and assimilation  
of food, strengthens their nervous sys-  
tem and restores them to the health,  
vigor and elasticity of spirits natural  
to childhood. 25c at DuBois, Kolb &

### Theatrical Notes.

"A Man of the People" was a de-  
cided novelty and agreeably surprised  
the most sanguine admirers of the  
Seward company at The Casino thea-  
ter. Nellie Manning, in the chief  
role, was both handsome and convinc-  
ing; Arthur Lynds as the villain, Lu-  
sigan, more than gained the detesta-  
tion of every one present in his latest  
efforts to be really wicked; Minnie  
Seward as the petite French ingenue,  
brought roars of laughter, while Har-  
rie Hooper gave a most dramatic col-  
oring to the part of the Hebrew usurer.  
Fred Seward was the "Man of the  
People" and he won new friends by  
his quiet yet intense work in a rather  
thankless part. All the other charac-  
ters were ably portrayed and the spe-  
cialties between acts again gained  
much applause. The company is now  
filling the theater nightly and de-  
serves all its success. This play goes  
on again tonight, but a special com-  
edy bill is announced for July 3 and 4  
with extra performance on the na-  
tional holiday.

Walter Jones, who is to star this  
coming season in the comic opera,  
"The Sleepy King," written for him  
by George V. Hobart and Louis Con-  
ternio, was destined for comedy at a  
tender age, if the testimony of his par-  
ents is to be accepted as "nothing but  
the truth."

His father, a prominent physician of  
Cincinnati, wishing to instruct his  
son in medicine, asked him:

"Walter, how long can a person live  
without brains?"

"I dunno, father," answered the  
boy, "but you're over 45."

Whereupon his father dismissed the  
class in anatomy, and young Jones  
left the homestead, and made a three-  
base hit in the ninth inning of the  
game in which he was on the score-  
card as "W. Jones—right field."

Miss Viola Allen, the noted actress,  
her father, O. Leslie Allen; her moth-  
er and small party of people from New  
York and Chicago, are visiting Peter  
Duryea at Patchen Wilkes stock farm,  
near Lexington. In the party are  
Mrs. Percival Hall and son of Chic-  
ago, and Miss Allen's brother, Paul Al-  
len, who has just returned from Paris,  
this where he recently graduated as  
flies" as they are called. The Louis-  
ville Post says of them:

The marine man is not a bugologist,  
but upon inquiring into the origin of  
the willow fly the fact was ascertained  
from Captain William M. Devan, that  
a tiny insect arises from the bottom  
to the surface of the water; after  
floating a few moment wings begin  
appearing on it; then in a few mo-  
ments more it flies off in a straight  
line, keeping its course until it strikes  
something, where it sticks until it  
dies. It has its existence about twelve  
hours. Its appearance in this harbor  
is only three days in each year, and is  
considered the forerunner of very  
warm weather. The willow fly is  
patterned much after what is known  
as the "snake feeder," which is com-  
mon around small streams in the  
country, but is not so large. There  
have been instances in his harbor  
where willow flies would stick so  
thick on new steamboats, not paint-  
ed, that the job had to be done over.

### A FINE SHOWING

A SUMMARIZED STATEMENT  
SHOWS GOVERNMENT  
BUSINESS.

Washington, July 2—Assistant  
Secretary of the Treasury Keeley has  
made a summarized statement of the  
principal financial operations of the  
government for the fiscal year closed  
June 30. The revenue of the govern-  
ment from all sources was \$1,000,000,000.

"One way?" exclaimed Hogg. "You  
advertise this as a round trip."  
"That's true," replied Archer, "but  
we figure that such of the boys as  
don't blow out the gas when they get  
to Kansas City, will be run over by  
some trolley cars."

Waitresses on Japanese Railroads.  
Refreshment cars on some of the  
Japanese railroads are now attended  
by waitresses. The girls are care-  
fully chosen and made to pass quite a  
stringent examination. The first  
qualification is good looks; the sec-  
ond, a passable education; and the  
third good conduct and references.  
The waitresses take rank as railway  
officials and wear a pretty costume,  
in modified national style, with West-  
ern improvements. The girls on duty  
must behave with military discipline,  
take no tips, refrain from chatter  
with passengers and efface them-  
selves as much as a well bred wait-  
ress should. The new departure has  
been a complete success, and the rail-  
way authorities are greatly satisfied  
with their girl attendants.

Central City, and a brakeman and  
messenger Wright caught them and  
escorted them to the conductor, who  
made them pay fare. When Rockport  
was reached they left the train and  
as they departed fired two shots at  
Mr. Wright, one just grazing his fore-  
head. The matter has been placed in  
the hands of I. C. detectives and the  
men will in all probability be ar-

## NOT FINISHED.

EVIDENCE SHOWED J. D. HOLLIS  
JUMPED FROM TRAIN.

Coroner Peal has not completed the  
inquest over the remains of John D.  
Hollis, the track foreman killed on the  
I. C. Cairo extension night before  
last, but will probably do so today.  
The evidence adduced yesterday  
showed that Hollis and the colored  
brakeman both jumped when the wa-  
ter car jumped the track, the engine  
running about eight miles an hour,  
and neither would have been hurt had  
they remained on. Hollis fell in front  
of the car and the brakeman to the  
side.

The remains of the unfortunate man  
were taken to Paris, Tenn., this af-  
ternoon for burial.

The remains of the late Mrs. J. T.

Consequently the Two Ladies Are No

Mrs. Smith and Miss Brown were

She was staying with her as a guest  
on a bitter cold frosty morning, and  
were going for a walk.

ty. Drs. Bullerok, of Louisville, and  
W. O. Bullerok, of this city, were  
sent to White Hall at the request of

## Mother's Friend

Those who do know about it wonder how they ever got along without it. It has robbed childbirth of its terrors for many a young wife. It has preserved her girlish figure and saved her much suffering. It is an external liniment and carries with it therefore, absolutely no danger of upsetting the system as drugs taken internally are apt to do. It is to be rubbed into the abdomen to soften and strengthen the muscles which are to bear the strain. This means much less pain. It also prevents morning sickness and all of the other discomforts of pregnancy.

A druggist at Macon, Ga., says: "I have sold a large quantity of Mother's Friend and have never known an instance where it has failed to produce the good results claimed for it."

A prominent lady of Lamberton, Ark., writes: "With my first six children I was in labor from 24 to 30 hours. After using Mother's Friend, my seventh was born in 4 hours."

## KILLED 10,000 MEN

Spearman Slaughtered in Large Numbers Recently.

Mad Mullah Is Being Hemmed in and May Soon be Undone.

London, July 2—The war office received a dispatch from Colonel Rochfort, one of the British officers serving with the Abyssinian force in Somaliland, which says the Abyssinians, May 31, after a series of forced marches, struck the mad mullah's forces near Jeyd, surprising them at dawn and killing 10,000 spearmen and capturing almost all their cattle and sheep, 1000 camels and routing them completely.

Colonel Rochfort adds that the Abyssinians have effectually closed to the mullah all the watering places south of the Gerlogubi-Galadi line, and he hopes they will soon be in contact with the British forces, and thus be able to co-operate in the pursuit of the mullah, who is delayed in his movements by the fact that he is crossing the waterless desert part of the country. The colonel's dispatch was dated June 14.

General Manning, the British commander in Somaliland, has telegraphed to the war office discrediting the reports that several British officers are prisoners in the mad mullah's camp. The general says deserters from the mullah's forces deny the rumors.

## GRAVE CHARGE

RAILROAD SECTION FOREMAN ARRESTED FOR ALLEGED SWINDLE.

John Lunsford, a section foreman at Spring Lick, and another employe have been arrested by Special Agent W. T. Dineen of the I. O. on the charge of obtaining money by false pretenses and the former is in jail at Leitchfield and the latter is out on bond.

Lunsford about six weeks ago reported that a cow had been killed on his section and Wilson was the man supposed to have been the owner. Lunsford, it is alleged, settled with the claim agent, and Wilson, it is said, received the \$25 for the bovine. On investigation by the I. O. detective it was decided that this was simply a "graft" and the matter was traced down to its origin and both men arrested. Wilson was arrested at Horton Tuesday and gave bond, but Lunsford was arrested yesterday at Leitchfield.

There was a slight street car wreck at Wallace park last night about 8:20 o'clock, when car No. 80, Motorman Robert Kreutzer and Conductor Leslie Johnson, crashed into a string of trailers at the Casino ticket office. ## OUTING SPOTS

IN THE

## NORTHWEST

There are many places in the country of the Northern Pacific, some inexpensive, others better and more expensive, where one can spend the summer days pleasantly and healthfully. Among these are Walker in the Leech lake country, and Detroit and Battle Lake in the Lake Park region in Minnesota; Eaton's ranch, near Medora, N. D.; Hunter's Hot Springs in the Yellowstone valley, and Missoula and the Bitter-root valley in Montana; Lakes Pend d'Oreille and Cour d'Alene, Idaho; North Yakima in Eastern Washington, and Green River Hot Springs in the Cascades; Tacoma, Seattle, Port Townsend, Port Angeles and Victoria on Puget Sound, and many places along the Columbia river and on the Pacific Ocean from Portland as a center.

Those east of the Mississippi who wish a decided change should go to the Rockies or the Puget Sound and Columbia river and sea coast country. We can only hint at these things here, but write us giving particulars as near as you can, and we will try to give you the needed information to enable you to find what you want. And don't forget that Yellowstone Park is the chief of all tourist shrines.

## Correct Summer Clothing The Kind That Won't Lose Shape

Did you ever notice how quick thin clothing loses its shape? It's because it is not made right. We overcome that fault in our Correct Summer Clothing—we've had it made a new way. The coats have a full shoulder, with hair-cloth stiffening down the front, that keeps them from breaking or losing shape. The pants have cuff bottoms, concealed buttons and felt straps, the cloth is thoroughly shrunk which overcomes bagging at the knee. There's no clothing like it for fit and style in Paducah. ## NEWS OF THE RIVERS.

Observations taken at 7 a. m. River 10.0 on the gauge, a fall of 0.3 in last 24 hours. Weather slightly cloudy and warm. Fowler, Observer.

The Pearce is still laid up. The Penguin is due from Mound City today.

The Charleston has gone into Tennessee river.

The Hook is due from Tennessee river tomorrow or Saturday.

The Nevins is due from Memphis, where she took a tow of coal.

The Dick Fowler left on time this morning for Cairo with a good trip.

The Wilford arrived from Cumberland yesterday with a tow of iron ore and will return tomorrow morning.

The John S. Hopkins left at 10 o'clock this morning for Evansville after having laid up for several days on account of repairs to machinery.

Yesterday the steamboat inspection service was transferred from the treasury department to the new department of commerce, which will be presided over by Secretary Cortelyou.

The Alice Brown, a towboat owned by the combine, ran into a coal barge and sank at the foot of Floyd street in Louisville yesterday. The barge contained 26,000 bushels of coal.

The N. C. and St. L. wharfbait will be shortly repaired. The river supervisor was in conference with the dry docks company officials this morning relative to doing the work. If the work is secured the strike on the docks will be settled with the closing of the contract as all the docks people are waiting for is work.

It is generally thought that there will be lively revival of the steamboat business with the beginning of the fall season and that a number of new boats will be built, says the Courier-Journal. There is no reason why it should not be revived. The business is there, and the travel is there. What is needed is the right kind of boats and the right kind of men to run them.

## By "X-Rays."

Just for once won't you try a pair of shoes that are made from guesswork measurements of what you ought to be, but from "X-ray" photographs of women's feet really are?

The "Dorothy Dodd" Shoe is exactly shaped to the bones, muscles, and ligaments of the foot as they are plainly revealed by "X-ray" photograph. is the explanation of why you hear so much talk on all sides about the wonderful "Fit of a 'Dorothy Dodd.'" The shoe deserves its popular nickname of "an arrangement in comfort." But all this is of no help to you unless you own a pair. On the day you buy them you will learn a new lesson in Foot Comfort.

After that, no one can sell you any other shoe but a "Dorothy Dodd."

Sincerely yours,
